VAWA Narrative

7 Topics

- **All topics are mandatory for competitive proposals**
- **Only #7 is mandatory for continuation proposals**

Topic 3 & Problem Statement

- Strong, persuasive presentation of the problem
- Clear, concise picture
- Backbone of the proposal. Must be supported by all other elements
 - Measurable objectives, implementing activities, evaluation activities
- **Weak problem statements indicate that the applicant organization may not understand the problem or is not prepared to have a positive impact on the problem**

VAWA Narrative

Developing the Problem Statement

- What is the nature of the problem?
- Who else in your area is working on the problem?
- How many people are affected and to what extent?
 - How can you prove it?
 - What statistical evidence do you have to support your statements?
- How often does the problem occur?
- What is the current client utilization of services for your agency?
- What is unique or special about your region?
- What **impact** will the project have on the criminal justice system and the targeted geographic region?

Use Data to Substantiate Your Needs

- Current, accurate, relevant
- Quantitative
- Surveys
- Focus Groups

Data Resources

- NM Interpersonal Violence Data Central Repository Reports on Domestic Violence and Sex Crimes
- NM Intimate Partner Violence Death Review Team Annual Report
- www.cvrc.nm.gov

Primary Project Components (PPCs)

Goal Statement

- Directly relates to a demonstrated need, as identified in the problem statement.
- **Not** an ultimate societal goal.
- Follows logically from your problem statement.
 - It is not appropriate to talk about a reduction in domestic violence if your statement of the problem discussed the need and justification for civil legal assistance.
- **Example: Increase the number of domestic violence victims who receive legal assistance to obtain orders of protection in Catron county.**
 - Program goal relative to demonstrated community need & is a goal that one can control.
 - This is different than "Reduce the incidence of domestic violence in Catron County"

Primary Project Components (PPCs)

Measurable Objectives

- **Quantifiable statements that support the goal and specify what must be done to:**
 - Maintain, Increase, Decrease, Enhance, Improve
 - And by how many
 - The amount of change you expect
- **SMART Objectives are**
 - Specific, Measurable, Action-oriented, Realistic, Timebound
- **Tip**
 - If you use a percentage (e.g. increase the number of SA convictions by 20%), include the baseline of convictions in the problem statement, so reviewers understand what 20% represents.

Primary Project Components (PPCs)

Implementing Activities & Impact Evaluation Activity

- **Implementing Activities**
 - Activities you must do to carry out the objectives you stated
 - Should be listed within the timeline they will be performed

- **Impact Evaluation Activity**
 - How will you show the impact of your program, i.e. did you reach your objectives?
 - You can answer this question if:
 - You can prove that your implementing activities were carried out, and
 - You can measure the increase or decrease or other changes to the degree your objectives stated

Primary Project Components (PPCs)

Example

Goals	Measurable Objectives	Implementing Activities	Impact Evaluation Activity
<p>Goal # 1. Increase knowledge of law enforcement in San Juan County regarding sexual assault laws and best practices for enforcement in responding to victims of sexual assault.</p>	<p>MO #1a. Conduct 1 training per quarter at each of the local law enforcement agencies (Aztec, Bloomfield, Farmington and San Juan County) to educate at least 5 law enforcement officers.</p>	<p>1a. Develop a PowerPoint using best practices for law enforcement response to victims of sexual assault.</p> <p>1b. Collaborate with the Coalition of Sexual Assault Programs to approve training materials.</p>	<p>1a. Maintain copy of PowerPoints, agendas, sign-in sheets and evaluation forms electronically at agency</p>
